DATA & RESEARCH

2018 General Election Early Voting Analysis November 1, 2018

The following information is based on data collected from the top 15 largest counties in the state only. It does not include data from all counties, but the information provides a snapshot of a large portion of the state's early voters. In 2014, these 15 counties accounted for 63.9% of all votes cast in the U.S. Senate race; 76.6% of all votes cast for David Alameel; and 56.6% of all votes cast for John Cornyn.

Early Voters – By Previous Election History

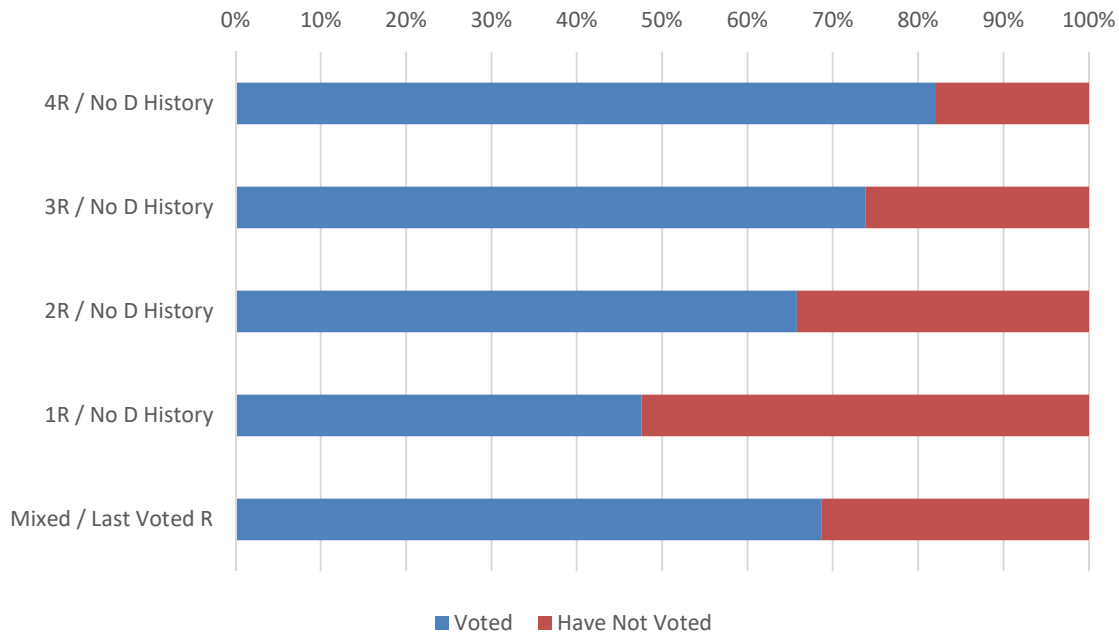

Category	2018 General Election	2016 General Election*	2014 General Election*
Voters with past Republican Primary history, but no previous Democratic Primary history	30.7%	31.3%	32.0%
Voters who have voted in both party's primaries, but most recently voted in a Republican Primary	1.0%	1.1%	6.0%
Voters with past Democratic Primary history, but no previous Republican Primary history	26.5%	20.7%	33.4%
Voters who have voted in both party's primaries, but most recently voted in a Democratic Primary	1.6%	1.0%	1.2%
Voters with no Primary Election history (Republican or Democratic), but have voted in a General Election	30.0%	30.0%	22.4%
Voters with no Primary Election history (Republican or Democratic) or General Election history	10.2%	15.8%	5.0%

*Percentages are for the entirety of the early voting period.

Are Republicans Showing Up to Vote?
